

**Q47: Minimal Linear Lattice
(Safe Prime, $I(q) = 2$)**

Order: $1 \rightarrow 2 \rightarrow 23 \rightarrow 46$

Single path = NO interference

**Q41: Complex Branching Lattice
(Non-Safe Prime, $I(q) = 6$)**

$40 = 2^3 \times 5 \rightarrow$ Multiple branches

Multiple paths = HIGH interference
